Air Management for one axle

Legende

- 6mm air hose
- 6mm² power cable
- 1mm² power cable
- KL 30 battery
- KL 31 ground
- KL 15 ignition

Information

Hoses should always be as straight and clean as possible be cut off. Always thread with sealant seal (also with fittings with sealing ring a small point on the thread).

We are not liable for installation errors.
This plan is just a installation plan no guide.
